EDUCATION

Parul University Vadodara, India B-tech - Computer Science and Engineering

07/2019 - 06/2023

6.91 CGPA

Kishan Madhyamik Vidhalaya, Lunawada GSHEB (Class XII)

07/2018 - 03/2019

59.8%

Kishan Madhyamik Vidhalaya, Lunawada GSEB (Class X)

03/2016 - 04/2017

68.16%

PROJECTS

Movie-App (02/2024 - 04/2024)

- Movie-App is a React-based movie website that allows users to search for movies by title, sort them by genre, view trending and upcoming movies.. The website is designed to be user-friendly and visually appealing.
- Search and watch movies: users can search for movies by title and can watch them easily.
- Trending Movies: displays a section for trending movies.
- Popular movies: displays a section for upcoming movies.

EXAM PREPARATION WEBSITE (01/2022 - 03/2023)

- Here I create a ExamPrep website that helps student to find a specific course, specific department, or specific year/semester exam paper.
- My Role in this project is as a front-end developer. I created web pages for better user experience.

REFOKUS CLONE (03/2024 - 04/2024)

- React-based clone website of Refokus. The project aims to replicate the layout, design, and functionalities of the original Refokus website while incorporating additional features and enhancements for an improved user experience.
- Smooth Animations : Smooth animations are implemented using Locomotive for enhanced scrolling experience, with additional animations added to various components such as the work section, project box, marquee section, and cards section.

Cynthia-Ugwu-Portfolio-Clone (04/2024 - 10/2024)

- Cynthia-Ugwu-Portfolio-Clone project. This project is a clone of the award-winning personal portfolio website of Cynthia Ugwu, a talented product designer.
- The goal of this project is to showcase skills in HTML, CSS, and JavaScript, while incorporating advanced features like Locomotive JS and GSAP Scroll Trigger.
